

QUALITY BY DESIGN CONTRACT MANUFACTURING SERVICES

Cyndeia offers contract manufacturing services for highly active molecules in solid dosage forms.

Cyndeia can meet your outsourcing needs for both potent & conventional solid dose drugs.

Cyndeia offers **segregated manufacturing premises** for highly active molecules, with a state-of-the-art GMP facility designed to comply with the most demanding environmental and safety regulations.

The plant:

- Two segregated manufacturing areas for oral tablets:
 - Line 1: Sex hormones. Dedicated line
 - Line 2: Slightly potent molecules (Corticosteroids & others).
- Packaging areas.
- Warehouse.
- GMP Pilot Plant.
- GLP QC Laboratories.
- GLP R&D Laboratories.

Manufacturing facilities:

- Personnel: 30% highly-qualified
- Production capacity:
 - Line 1: Hormones line capacity ranges from 23 Kg to 75 Kg.
 - Line 2: Corticosteroids & others line capacity ranges from 100 to 200 Kg.
